a tradition that

Ice Cream has been around for a longer time than most people realize. In fact, Hippocrates himself was known to enjoy an early version of it, based on snow. It evolved through out the ages, and the Italians perfected the modern ice cream, and to this day hand craft their famed gelato

It is clear that people love the icy food as much as the Greeks did millennia ago, but times change, and in this 21st century, your emporium should embrace the amazing opportunities technology offers

But what does it do?

- Track stock, profit/loss, customers
- Manage payments, workers
- Offer a clear, easy interface for customers to order with
- And much more

Who are we?

We are a team of three Computer Scientists who love Ice Cream, and the joy it can bring to any given day.

Our goal is to provide the best experience to customers, owners, and workers, and to maximize both the efficiency and satisfaction of the ice cream business.
